 Session III
 3:15- 4:00

Presenter/s	Title	Description	Level	Threads
Debbi Maddy	Teaching 21st Century Skills to Digital Natives	AASL's Standards for the 21st Century Learner provide a guide for our students to learn across the content areas acquiring the skills that will make them competitive in the world they are going to live and work in. The implementation of AASL's Standards for the 21st Century Learner is called L4L (Learning for Life). Come and find out how you can implement these skills.	K - 12	Information literacy, Partnerships, Technology, Comprehension, 21st Century Skills
Becca Stith Munson & Amanda Davis	Library 2.0	Web 2.0 tools powerfully provide students opportunities to creatively express their knowledge and collaborate with the global community. Join the dialogue as we demonstrate how 2.0 tools can be seamlessly integrated. Such examples will prove how 21st century skills can improve critical thinking skills and engage even the most reluctant learners.	Secondary	Information literacy, Collaboration, Technology, Motivation, Writing
Becky Hilt & Janie Elder	Grab'em with Graphica	What is graphica? Is it possible to improve reading skills using comics and graphic novels? In this session you will explore the conventions of graphica and examine how to use them to teach vocabulary and reading comprehension. In addition, examples of how to integrate graphica into research projects will be shown.	Gr 3 - 8	Vocabulary, Comprehension, Content areas, Struggling readers, Motivation
Dr. Kathleen J. Sanders & Dr. Carol A. Borchers	Integrating the William Allen White 2009-2010 Books into Content Area Themes	This presentation will include short book talks on the 2009-2010 WAW 6th-8th grade books. The books will be classified according to content area themes in middle level grades. Ideas for integrating the books into themes and for using the books to motivate middle level students will be distributed.	Gr 6 - 8	Content areas, Literature & Authors, Motivation

Friday October 16, 2009
 Session III
 3:15- 4:00

Dr. Beth R. Walizer	Teaching with Technology: Strategies You Can Use to Integrate	Technology can easily be integrated in all content areas. Participants will gain information on how to help students become literate in the 21st century and how to prepare students for jobs and technologies in order to solve problems.	Gr 1 - 8	Vocabulary, Comprehension, Fluency, Phonics and Phonemic
Karen Hurst-Bonner	Follett e-books		all	Technology
Jackie Lakin and Mirah Dow	Want to Effectively Communicate the School Librarian's Role In Student Learning and Achievement?	Find out what's new and in the works at the Kansas State Department of Education. Students learn 21st Century Learning Skills through state-of-the-art school library media programs. Learn what's new at KSDE. Get reliable data to support your advocacy messages to local educators and administrators, legislators and the public.	ALL	Information and Technology literacy; Content areas; Advocacy
Marcia Stockham & Heather Smith-Collins	From University to Classroom: Information Literacy Landscapes for K-12	How can school and academic librarians work together to improve IL in k-12 schools? Come hear about a study of education majors and school librarians which focused on the transfer of IL skills from pre-service college classrooms to k-12 schools. Includes problem solving discussion.	All	Information literacy; Partnerships
Floyd Hicks	Exploring the World Book Web	Specific training on the World Book Web databases purchased by the state of Kansas for all schools and libraries, including home access. Focus on World Book Kids, Student and Advanced databases.	PreK - 12	Technology; Comprehension; Vocabulary; Home school connection

Friday October 16, 2009

Session III

3:15- 4:00

<p>Linda Carr & Jan Prophet</p>	<p>Spice Up Your Projects with Technology</p>	<p>Research shows that today's students think, learn, and interact differently. By integrating technology into our curriculum, we've changed the way we teach. A Media Specialist and an Instructional Coach will share projects using Blabbers, Photostory, and Vokis (all free!) to engage students as they tackle state standards in both reading and writing.</p>	<p>Gr 1 - 12</p>	<p>Vocabulary, Comprehension, Fluency, Information literacy, Partnerships, Content areas, Struggling readers, Literature & Authors, Technology, Writing, Motivation</p>
